

our outreach programs

Mission Center of HOPE

is a volunteer driven, service-based organization dedicated to reaching out across San Diego county and our neighbors across the border. Our purpose is to make a difference in the daily lives of men, women, children and youth.

homeless

The *Mission Center of HOPE* works directly with the homeless in the greater San Diego area by distributing clothes, basic necessities, and toys to the less fortunate.

orphans

Volunteers from the *Mission Center of HOPE* work alongside the Door of Faith Orphanage in Baja California, Mexico to bring a light of hope to the children living there and support to those caring for them by building lasting friendships.

blood drive

Just one donation can help save the lives of up to three people. The *Mission Center of HOPE* supports the efforts of the American Red Cross by sponsoring recurring blood drives.

women's shelter

The Esther Project delivers food made by volunteers from the *Mission Center of HOPE* to a shelter for families coming from harmful environments.

house building

Through our House Building Program, the *Mission Center of HOPE* provides materials and volunteers to build homes for families staying at the Door of Faith Orphanage.

foster children

In San Diego county approximately 6,500 youth are part of the foster care system. The *Mission Center of HOPE* reaches out to many of these children with the help of Urban Surf for Kids by providing surf lessons and lasting friendships.
